DIFFICULT AIRWAY CART

PRODUCT DESCRIPTION

The EVERHUTCH Difficult Airway STAT Cart is designed to equip clinicians with fast, organized access to airway management tools during critical situations. Its teal drawer fronts provide clear visual identification in high-pressure environments, while six drawers of varying depths offer ample storage for scopes, blades, airway devices, and medications. The cart features an overhead tilt-bin system for quick retrieval of small supplies and a side-mounted oxygen tank holder to ensure respiratory support is always within reach. A mounted waste bin supports clean, efficient workflow, while durable construction and smooth direction-lock casters provide the mobility and reliability needed in emergency care settings. Built for performance when seconds matter most.
